NetAcad Recognition

Instructor Excellence Recognition

The dedication and passion of NetAcad instructors is vital to the success of Cisco Networking Academy. The awards in this category recognize instructors for their contributions and instructional excellence. Instructors are encouraged to "opt in" to the Recognition Program as part of their user profile preferences in NetSpace, to enable Cisco to publically recognize you on web pages or at local events.

Instructor Excellence

The Instructor Excellence award recognizes high performing instructors globally, across all curricula.

There are two levels of recognition an instructor can achieve:

- **Expert level:** the top 10 percent of instructors globally
- **Advanced level:** the top 25 percent of instructors globally

Search for Recognized Instructors

Many instructors have been recognized over the years. Filter the results to view a targeted range of recipients.
